1. Brief

Human civilization suffered several historical life changing events such as industrialization, urbanization coupled with poor social infrastructure and lack of individual and communal sanitary consciousness.

Today we are already in the midst of a pandemic of unforeseen scale that has affected almost 216 countries and territories and infected more than 55 million people around the world. Poor sanitation is also one of the prime factors in the spread of pandemics that cripples the social fabric and demands evolution and adaptation.

This is a situation where *Design* comes in as a gift. It may not be able to produce a vaccine but it can support to make life possible again. Beyond the rush for health cures, cities need to react to the urgent need of developing an integrated approach towards public health care services as a tool for virus containment.

Opportunity

The situation of social distancing is currently indefinite and this may become the new normal. It is wise to work towards a lifestyle effective in situations like these, which can guard us today and secure us for the future.

Contact Less Restroom, invites **Creatives** with ideas that can be used to change the overall outlook towards public toilets catering to the most innovative and efficient solutions for this serious issue.

The space should be visualized as prime component of community thinking outside the box, towards the real challenges like isolation and **Touch Less Service**. The design seeks to retrofit the built environment in order to minimize the potential of future exposure with an ulterior motive of '*Containing the Virus and not the Human*'.

2. The Competition: Contact Less Restroom

Site Description

The competition focuses on reviving an existing layout as a transmission proof zone, contradictory to the current scenario where it remains highly contained due to overuse by masses. The design scope can be a social rest or rechargeable arena that adds value to the quality of life whereas the highlight remains to mitigate the propagation of the contagion without hampering the permeability of users.

Details

- Participants should unlearn the experience of a conventional public restroom and design a contact less innovation for improvisation of the existing layout, with minimal alterations, providing maximum isolation as an initiative to contain the virus, not the Human.
- The primary use of the design should be as a **Contact Less public restroom**. The design should involve creative solutions to retrofit, making the user experience comfortably contact-less.
- The design intervention should be aimed to address the efficiency of Touch-Free public restrooms through innovative techniques and use of technology to facilitate proper sanitation, efficiency, comfort and privacy.
- The designed space should be convenient enough for all age groups and gender.
- The competition stands to promote the architecture and product designs to come together and bring a progressive solution to current and future crisis of similar type.

Requirements

- Competition is open for all.
- Design proposals can be developed individually or by a team of not more than 3 members.
- The proposal should address one or more solutions providing modifications of existing toilets to contact-less/ touch free/ progressive toilets with the help of architectural

designs/ engineering techniques and product designing.

Focus Areas of Proposed Design Solutions

- **Creating Modules** : Space should act as an individual entity or a module, which can be replicated in different areas similar to site context.
- **Touch less user experience** : Design should be completely self-sufficient, i.e. to experience all the facilities without using hands or minimal touching.
- **Lesser Wastage** : Design should promote the techniques for minimal wastage and to retrofit.
- **Innovation** : Design should use innovative measures/methods/technology for improvisation of the current scenario.
- **Social Distancing** : Convenient, comfortable and spectacular spaces keeping in mind the social distancing norm.
- **Product Design** : The proposal should address one or more solutions providing modifications of existing toilets to contact-less/ touch free/ progressive toilets with the help of architectural designs/ engineering techniques and product designing.

Downloads

All the documents provided to the participants can be found on www.adplusa.com/brief.zip.
Inclusive of Layout (in .PDF as well as .DWG format)

All the documents shared by ADPL CONSULTING LLC only aims for the running of this competition and can be used only for this purpose. Any usage of this material outside this competition is strictly forbidden.

3. Result

The esteemed jury shall scrutinize all the entries and judge 3 winners on the basis of criteria mentioned in Chapter 4.

The top 10 entries will be displayed on the website and social media handles of ADPL CONSULTING LLC and Lingel Windows & Doors Technology Pvt. Ltd. on the date as mentioned in the schedule in Chapter 6.

Participation certification will be awarded to all the participants for their efforts.

Notes

- Submission of the entries and/or winning of the competition does not constitute any kind of professional commitment between the participant and any of the organizers.
- Intellectual property of the entry remains with the creator.
- ADPL CONSULTING LLC reserves the rights to use, publish or promote the projects with freedom of formats, dimensions and layout at their discretion.

4. Jury& Evaluation Process

The jury panel consists of the following members.

1. **Kyle Jensen** – Florida, USA (Architect with 30 years of Experience)
2. **Dr. Anil Kashyap** - England (Head of School, University of the West of England)
3. **Abhishek Aggarwal** - India (Architect with 24 years of Experience)
4. **Umesh Goel** - Dubai (Architect with 20 year of Experience)
5. **Mario Schmidt** - Germany (Master Craftsman, 25 year of Experience in Fenestration)

Evaluation Criteria

Jury members will evaluate the design entries on individual and incontestable judgment, by giving points on each of the following categories:

- **A** – Design quality clearly communicating the concept and ideology including social & economic aspects (max 30 points)
- **B** – Architectural quality and relationship with the existence: capability of the proposed design to deal with the issue as an attempt to contain the virus, not Human (max 35 points).
- **C** – Adherence to the requested principles: observance of prescribed functions and objectives. A design preference which is innovative and communicative highlighting the efficient solutions for maximum efficiency within the given challenges (max 35 points)

If, for any reason, one or more members of the jury is unable to proceed to the evaluation process, these members will be replaced with other members, chosen by ADPL CONSULTING LLC.

5. Q & A

All competition related questions can be sent to clr@adplusa.com before the last date.

Answers will be shared individually via email at the earliest. All relevant queries and answers shall also be shared on our website www.adplusa.com on the date as mentioned in the schedule in chapter 6.

Questions submitted after the deadline will be ignored.

6. Important Dates

Event	Scheduled Date
Competition Launch/Registration Begins	November 23, 2020
Registration Closes	February 15, 2021
Last date to submit the Queries	February 17, 2021
Answers To The Queries Displayed on Website	February 20, 2021
Last Date for Entry/ Submissions	February 22, 2021
Announcement of Competition Results	March 15, 2021
Award Ceremony/Distribution	Will be notified later

7. Design Proposal & Submission Requirements

In order to avoid any kind of connection between candidate's identity and the design proposal, participants will be provided with a Transaction ID at the time of registration. The participants are required to write this Transaction ID in their design proposal. Under no circumstances, any other personal information shall be furnished during submission of the design proposal.

The participants have to work on the toilet layout attached to the document. (Available in both .PDF & .DWG file formats).

Submission URL : <https://www.adplusa.com/se/>

Submission Requirements

- Submissions can be in form of plans, sections, sketches, 3D or any other medium as desired. The focus is to explain the concept precisely.
- Not more than 2 sheets in landscape orientation of any size combined in a single PDF format, not exceeding 7MB shall be accepted.
- Along with the design, the participants are also required to submit a report explaining the design proposal in not more than 500 words as an A4 document in PDF format.
- All text should be in English and all dimensions should be in metric system.
- No particular format for the sheets is provided however the participants must write their Transaction ID in the top right corner of all the sheets including the report.
- File name should be : DES_Last four Characters of TransactionID.pdf & REP_Last four Characters of TransactionID.pdf .
(For example your Transaction ID is 7DW28664LX220615J hence the file name : DES_615J for the design & REP_615J)
- Submission URL : <https://www.adplusa.com/se/>

8. Rules & Guidelines

Language

The official language of this competition is **English**.

Anonymity

The design submission should not have the name of the participant. However, the names of the participants must reach the organizers separately from the design submission. Participants only have to mention their Transaction ID in the submission as listed in chapter 7. Mentioning any other personal information or absence of Transaction ID on the submission will result in disqualification.

Refund

No refund shall be entertained after the registration. The registration fee for this competition cannot be used for other competitions being organized by ADPL CONSULTING LLC.

Copyright & Project Intellectual Ownership

Intellectual property of the project is left entirely to the creator.

ADPL CONSULTING LLC keeps the right to share, publish and promote the design on their own discretion in any format, size and layout.

Participant cannot promote/display his entry without seeking a written permission for ADPL CONSULTING LLC.

Results notification

All winning participants will be notified via email. The results will also be displayed on our website and the other social media handles.

Disqualification

Design entries are liable to get disqualified in case of:

- Any kind of communication with the jury members about this competition.
- Any entry sent after the submission deadline.
- Appearance of any logo, trademark or element on the design proposal that reveals the identity of the participant.
- Publishing the design proposal before the end of competition.
- Being in a professional relationship or familiarities (till second grade) with the jury members and/or the organizers.
- More than 1 entry received from a single participant.

Conditions

- By sending the design entry, each participant agrees to every part of this document and the final decision of the jury.
- ADPL CONSULTING LLC reserves the right to suspend or modify the schedule at any time, if deemed necessary by the organizers or if unpredictable may arise.
- Winning participants will be asked to verify their identities by sending a copy of their ID document.
- Participants undertake not to take any legal actions against ADPL CONSULTING LLC about this competition.

9. FAQs

Q1. What is the size of the panel that we need to use for the design proposal? Is this all we need to submit, or are there any additional documents required?

The submission shall not contain more than 2 digital sheets of any size up till A1 (841 x 594mm). Apart from the design, you will be required to submit a report explaining your design (max. 500 words).

Q2. Is there any maximum size or minimum resolution of the file which is to be uploaded?

The files (both) should not exceed 7MB

Q3. Do I have to upload the design sheets individually?

In case of more than 1 design sheets, compile them as a single pdf document before uploading.

Q4. Is there any specified format for the design file?

All the files shall be uploaded in PDF format.

Q5. Can the intervention include the surrounding areas as well?

Depending on the design proposal, teams may contemplate the possibility of intervening and extending outside the given arena to an extent that it shall not lose its identity as a module to be replicated. The judgement criteria remains strictly based on the interventions taken inside the arena and not outside.

This is strictly an idea competition, an academic exercise and will not be built.

Q6. Should we take into consideration handicap accessibility?

Yes

Q7. For visualizations, is it necessary to make renders or can I present hand-sketches?

We are open to any form of representation, be it graphical, digital or hand drawn. The sole purpose is to be able to convey the idea in a comprehensive manner.

Q8. Can we make changes in the existing layout?

You can alter the design arena but the competition focuses on retrofitting elements which can make the space transmission proof without much damages.

Q9. Is this architecture competition open to students?

Yes, the competition is open for all.

Q10. Can we change the team members after the registration period?

No, the list of team members and the team leader cannot be changed after submitting the online registration form and completing the payment process.

Q11. We are interested in participating in the current competition and are wondering if it is necessary to register and make the online payment before submission?

Yes. It is mandatory to register and pay the registration fee in order to participate and make a valid submission.

Q12. Can I submit more than one proposal?

No

Contact

For any queries, you can write to us at clr@adplusa.com . No phone calls shall be entertained for this purpose

Thanks for your participation!
